HANDS-ON COURSE:

# The 3<sup>rd</sup> Advanced Temporal Bone Course

This hands-on course addresses younger otosurgeons and includes all tympanoplastic and mastoid procedures including obliteration technique, ossiculoplasties (autologous bone, titanium prosthesis), stapes surgery and hearing implantation (BAHD, middle ear implants, CI). The surgical techniques will be demonstrated and practiced under supervision of skilled clinical teachers. The temporal bone lab is designed for 15 delegates. All participants will have their own complete equipped workbench with drill, microscope and surgical instruments. The course language is English.

The Education Centre in Sparsör is located near Borås 45 minutes from the Gothenburg airport "Landvetter".

The course fee 1300 Euro – 13 000 SEK + VAT includes 2 fresh frozen temporal bones, course literature, lunches, coffee/tea, reception, course dinner and bus transfers from the hotel in Borås to the Education Centre. The costs for the hotel accommodation are not included.

For registration go to [www.po-medica.com/courses](http://www.po-medica.com/courses)
