

## Programoversigt

	TORSDAG 12. APRIL	FREDAG 13. APRIL
09.00	Registrering	Frie foredrag Otologi og Laryngologi
10.00	Velkomst	Frie foredrag Rhinologi og Hoved-hals
	Immuno-terapi i Hoved-Hals cancer	KAFFE
11.00	KAFFE	Patientklager
12.00	Hoved-Hals cancer i Danmark Inviterede foredragsholdere	FROKOST
13.00	FROKOST	Frie foredrag
14.00	Frie foredrag Hoved-hals og Vestibulogi	KAFFE
15.00	Uddannelses session	Ph.d afhandlinger
16.00	KAFFE	Ph.d afhandlinger
	Frie foredrag Vestibulogi	Afslutning og prisoverræk- kelse
17.00	Uddannelses session	
	DSOHH Generalforsamling	
18.00		
19.30	Gallamiddag og dans	

## Program torsdag d. 12. april

09.00-10.00	REGISTRERING	
AUDITORIUM Hoved-hals cancer - Moderator:		
10.00-10.15	Velkomst ved formand Per Cayé-Thomasen	
10.15-11.15	Prof., Dr., Barbara Wollenberg Evolving role of immunotherapy	
11.15-11.45	KAFFE - POSTERPRÆSENTATIONER NR. 1-5 BESØG HOS Udstillere	
11.45-12.30	Max Rohde	Upfront PET/CT i planocellulær hoved-halskræft
12.30-13.15	Thomas Kjærgaard	TORS: erfaringer fra AUH
13.15-14.15	FROKOST I Udstillerområdet	

## Program torsdag d. 12. april - fortsat

AUDITORIUM Hoved-hals/Vestibulogi- Moderatorer: Helle Døssing/Jesper H Schmidt			SAL 31 Uddannelsessession - Moderator: Jacob Melchior		
14.15-14.30	R Reinke	Incidental and Nonincidental Papillary Thyroid Microcarcinoma in Denmark 1996-2015: A national study on incidence and outcome	14.15-14.30	J Melchior	EPA - Kompetencekort. Teoretisk baggrund
14.30-14.45	F Pedersen	The impact of esophageal compression on goiter symptoms in patients with benign nodular goiter	14.30-15.10	R Jacobsen	Kompetencekort i Anæstesi
14.45-15.00	K Swan	Characterizing thyroid surgical patients in relation to malignancy risk-stratification	15.10 - 15.30	M Hansen	Perspektiv fra en Introlæge i anæstesi
15.00-15.15	L Rolighed	Use of C-11-Methionine positron emission tomography scans improves the preoperative localization of pathologic parathyroid glands.	15.30-16.00	K Petersen og J Melchior	Kompetencekort i øre-næsehals - Muligheder og udfordringer, Plenum
15.15-15.30	L Devantier	PET visualized stimulation of the vestibular organ			
15.30-15.45	J Kjærsgaard	Vestibular Deficits Correlating to Dizziness Handicap Inventory Score, Hearing Loss, and Tumor Size in a Danish Cohort of Vestibular Schwannoma Patients			
15.45-16.00	M Said	Danish Validation of the Abbreviated Profile of Hearing Aid Benefit Questionnaire			
16.00-16.30	KAFFE - POSTERPRÆSENTATIONER NR. 6-9 BESØG HOS UDSKILLERE				
AUDITORIUM - Moderator: Jesper H Schmidt			SAL 31 Uddannelsessession - Moderator: Jacob Melchior		
16.30-16.45	I Christensen	Validation of posturographic measurements in adolescents	16.30-17.00	H Fagø-Olsen	E-learning kursus til kursister i ØNH- specialet og udvikling af uddannelsesportal i DSOHH regi
KAFFE					
17.10-18.30	DSOHH Generalforsamling				

## Program fredag d. 13. april

AUDITORIUM Otologi og laryngologi - Moderator: Jens H Wanscher			SAL 31 Hoved-hals og Rhinologi- Moderator: Anette D Kjeldsen		
09.00-09.15	J Hertz	External Auditory Canal Cholesteatoma and Benign Necrotizing Otitis External - A clinical study of 95 cases in the Capital Region of Denmark	09.00-09.15	E Rasmussen	Assessment of 105 Patients with Angiotensin Converting Enzyme-Inhibitor Induced Angioedema
09.15-09.30	M Guldager	Development of a validated tool assessing technical skills in handheld otoscopy	09.15-09.30	E Rasmussen	Angiotensin II receptor blockers are safe to use in patients with prior angiotensin-converting enzyme-inhibitor induced angioedema – a nation-wide registry-based cohort study
09.30-09.45	S Andersen	The role of structured self-assessment and effect on performance in virtual reality simulation training of mastoidectomy— a mixed methods study	09.30-09.45	J Cornwall	ACE-Inhibitor related Angioedema is not sufficiently reported to the Danish Adverse Drug Reactions Database
09.45-10.00	R Knudsen	A prospective evaluation of the etiology of recurrent laryngeal nerve palsy: Recurrent laryngeal nerve palsy is associated to malignancy	09.45-10.00	E Arndal	The genetic and phenotypic evolution of <i>P. aeruginosa</i> in the sinuses and lungs of Primary Ciliary Dyskinesia (PCD) patients. <i>Pseudomonas aeruginosa</i> adaptation in the united airways
10.00-10.15	J Sørensen	Cross-cultural adaption and validation of the Danish Voice Handicap Index	10.00-10.15	M Filtenborg	Improved Survival in Nasal Vestibule Cancer
