

## Tilmelding af Foredrag

### Foredragets titel

Vascular malformation in cavum oris, hypopharynx and endolarynx - a case presentation and an overview of the ISSVA classification

### Forfatter(e)

Viveque Egsgaard Nielsen  
MD, Phd, associate professor

### Afdeling/praksis

Øre,-næse halskirurgisk afdeling  
Odense Universitets hospital

### Uddannelsesniveau

Afdelingslæge

### Introduktion

A case presentation of a 2 years old girl with a rapidly growing venous vascular malformation in cavum oris extending to the laryngeal area.

Problems and dilemmas regarding her specific disease will be presented, a short video as well and the future strategies regarding her disease will be adressed.

Finally a short presentation of the ISSVA classification will be presented in order to inform the spectators about this important classification system for vascular anomalies

I think that approx. 10 minutes lecture will be enough time for me

### Materiale/metode

case presentation
