***Æret være deres minde!***

# Uddannelse

## Den nye målbeskrivelse

- Implementeret 2022
- Kører planmæssigt
- Evaluering mhp. justering og tilpasning: kompetencekort

# Uddannelse

## Allergologi - fagområdeuddannelse

- Hvorfor? Allergologi er en væsentlig del af ØNH
  - Speciallægepraksis > hospital
  - Biologisk behandling ved CRSwP
- Målsætning: udarbejde ØNH-curriculum mhp. certificering af ØNH-allergologer
- Arbejdsgruppe: -> DSOHH, DØNHO, DRS, CvB, AK

**UDDANNELSESPROGRAM**

**FOR**

**FAGOMRÅDE ALLERGOLOGI**

**DSA Juli 2015**

# Specialeplan

- Ingen aktivitet i 2022
- DSOHH finder behov for revision
  - DSOHH har anmodet SST om revision
  - SST planlægger revision i 2023
  - => specialeplansudvalg under DSOHH etableres når processen initieres

# Høringer og andre relationer

## >50 høringer årligt

- Udspil fra DR, SST, Sundhedsministeriet m.fl.
  - Nationalt Genom Center
  - Nærhospitaler, faglig ramme
  - Epidemikommision
  - Dimensioneringsplan
  - Retningslinjearbejde
- Anmodning om rådgivning vedr. klip af *læbe- og kindbånd* (SST)
- Bekymringsmelding vedr. personaleflugt, uddannelse, arbejdsvilkår, differentieret behandlingsgaranti (Dansk Kirurgisk Selskab)

# Høringer og andre relationer

## Arbejdsgrupper & kommissorier

- Behandlingsrådet
  - Irene Wessel indstillet til og optaget i behandlingsrådet
  - Fagudvalg: beh. af søvnapnø => Eva Kiær, fmd
- Kommissorium vedr. pakkeforløb for lymfekræft & CLL => TK
- Arbejdsgruppe vedr. senfølger efter COVID-19 => Therese Ovesen
- Programmet for høreområdet i fremtiden, initiativ 4 (SPS) => Jesper Yde

# Råd og udvalg

## Kodeudvalg

- Formand: Jens Wanscher
- Feedback til DRG-grupperingslogik, 2024
- DRG omkostningsberegninger på faldende takster inden for rhinologi
- Simplificering og modernisering af DRG-grupperingslogikken
- *Se årsberetningen på [dsohh.dk](http://dsohh.dk)*

# Råd og udvalg

## Uddannelsesudvalg

- Formand: Grethe Samuelson
- A-kurser:
  - Alle velgennemført
  - E-learning implementeret
- Målbeskrivelsen:
  - implementeret
- Se årsberetningen på [dsohh.dk](http://dsohh.dk)

1. Audiologi	November	1. år af HU
2. Vestibulogi	December	1. år af HU
3. Billeddiagnostik	Marts	1. år af HU
4. Mellemøret	Januar	2. år af HU

& luftveje, spytkirtler, thyreoidea
- Godkendt i UEMS 2021

### Training Requirements for the Specialty of Oral & Maxillo-Facial Surgery (OMFS)<sup>1</sup> European Standards of Postgraduate Medical Specialist Training October 2021

#### Preamble about UEMS: a key element of every ETR

The UEMS is a non-governmental organisation representing national associations of medical specialists at the European level. With a current membership of 40 national associations and operating through 43 Specialist Sections and their European Boards, 17 Multidisciplinary Joint Committees and 4 Thematic Federations the UEMS is committed to promote the free movement of medical specialists across Europe while ensuring the highest level of training which will pave the way to the improvement of quality of care for the benefit of all European citizens and beyond. The UEMS areas of expertise notably encompass Continuing Medical Education, Post Graduate Training and Quality Assurance in Medical Specialist Practice.

It is the UEMS' conviction that the quality of medical care and expertise are directly linked to the quality of training provided to the medical professionals. Therefore the UEMS committed itself to contribute to the improvement of medical training at the European level through the development of European Training Requirements (ETR) in the medical disciplines. No matter where doctors are trained, they should have at least the same core competencies.

In 1994, the UEMS adopted its Charter on Post Graduate Training aiming at providing the recommendations at the European level for good medical training. Made up of six chapters, this Charter set the basis for the European approach in the field of Post Graduate Training. With five chapters being common to all specialties, the Charter provided a sixth chapter ("Chapter 6"), that Specialist Sections and their Divisions were to complete according to the specific needs of their discipline.

After the introduction of this Charter, the UEMS Specialist Sections and other UEMS Bodies have continued working on developing these ETRs that reflect modern medical practice and current scientific findings. The UEMS ETRs are a voluntary effort of European medical specialists and do not aim to supersede the national curricula developed by National Competent Authorities that define the content and course of postgraduate training in their own States. UEMS aim is to indicate the knowledge and competencies that should be achieved by trainees in EU/EEA countries and also competencies and organization of the training centers. The training environment and results described in UEMS European Training Requirements may be achieved in many ways, depending on local traditions, organization of healthcare system and of medical specialist training. Adaptation of UEMS ETRs to local conditions assures the highest quality of specialist training and each state may include additional requirements, depending on local needs. UEMS ETRs are developed on the basis of medical specialist training in EU/EEA countries but are applicable and relevant globally, and may be implemented in any country with organized medical specialist training.

At the European level, the legal mechanism ensuring the free movement of doctors through the recognition of their qualifications was established back in the 1970s by the European Union. Sectorial Directives were adopted, and one Directive addressed specifically the issue of medical Training at the European level. In 2005, the European Commission proposed to the European Parliament and Council to have a unique legal framework for the recognition of the Professional Qualifications to facilitate and improve the mobility of all workers throughout Europe. This

### #Educating for the future

DSOHH har besluttet at byde på afholdelse af IFOS verdenskongressen i 2030. Den første internationale otolaryngologiske kongres blev afholdt i København i 1928. Det vil derfor være en ære at afholde 100-års jubilæet for IFOS i København, tilbage hvor det hele startede.

### #IFOS\_COP100 mission

#### Faglig mission

#100 års jubilæum, #høj faglighed, #professionel ramme, #educatingforthefuture, #doing=learning, #challenge

#### Event mission

**MEMORANDUM OF UNDERSTANDING**

BETWEEN

**Danish Society of Otolaryngology-Head and Neck Surgery**

AND

**Korean Society of Otorhinolaryngology-Head and Neck Surgery**

Danish Society of Otolaryngology-Head and Neck Surgery and Korean Society of Otorhinolaryngology-Head and Neck Surgery, jointly referred to as "both sides", with the objective of facilitating mutual friendship, academic cooperation between two associations for benefits, hereby conclude this Memorandum of Understanding (hereinafter, "MOU") with faith and sincerity as follows.

**1. The purpose of this agreement**

The purpose of this MOU is to enhance mutually beneficial cooperative working relationship and collaboration between the Danish Society of Otolaryngology-Head and Neck Surgery and the Korean Society of Otorhinolaryngology-Head and Neck Surgery. The MOU will provide a general and common framework for any different further agreement that will be made on specific forms of cooperation.

**2. The two associations agree to the following terms**

In order to promote cooperation, both sides may undertake various activities such as those listed below. The details of the cooperation will be specified through separate agreement(s).

- A. Work together in good faith to coordinate within the scope of this agreement.
- B. Exchange scientific and technical information as may be appropriate.
- C. Exchange of personnel in areas mutually agreed upon by both sides.
- D. Support reciprocity in society extension activities of common interest.
- E. Organize joint symposiums or panel discussions at the annual meetings of each side along with conferences and other professional meetings of common interest.

cooperation between the Danish Society of Otolaryngology-Head and Neck Surgery and the Korean Society of Otorhinolaryngology-Head and Neck Surgery shall not necessarily be limited to these activities, as can be included in the cooperation so long as both sides mutually agree.

**Amendments to this agreement**

Amendments to this MOU may be made at any time by either side, and such amendment(s) shall be incorporated into this MOU upon mutual consent of both sides.

**Term of validity and termination**

This agreement will operate from the date of signing and may be subject to revision and modification by mutual agreement. This agreement will remain in effect for three years, and may be renewed, or amended, upon mutual agreement.

This MOU is made in two equally authentic copies in English, one for each of the signing parties.
