Velkommen

Kære venner og kolleger

I år markerer vi DSOHH's 125 års jubilæum - en historisk milepæl, som vi glæder os til at fejre sammen med jer. Årsmødet kommer derfor til at stå i jubilæets tegn.

I kan se frem til jubilæumssessioner, hvor vi gør status og kommer med bud på fremtidens ØNH, og hvor Kaare Christensen, professor i epidemiologi, biostatistik og biodemografi, berører temaet "Are we reaching the limits of human health and lifespan?".

Vi lancerer et jubilæumsskrift, der fortæller historien om vores speciale gennem de seneste 25 år, baseret på beretninger og faglige fortællinger, leveret af kolleger fra hele landet.

Og så glæder vi os til at fejre jubilæet under gallamiddagen. Vi tør godt afsløre, at der er lagt op til et BRAG af en fest!

Årets hovedtema er otologi/audiologi -et fagområde, der har gennemgået en rivende udvikling de senere år. Temaet indrammes af årets hovedforedragsholder Frank R. Lin, Professor ved Otolaryngology, Medicine, Mental Health & Epidemiology og Director of Cochlear Center for Hearing & Public Health, Johns Hopkins University.

Igen i år har vi programsat paneldiskussioner med deltagelse af eksperterne, hvor vi ser frem til faglige debatter med omdrejningspunkt i kliniske cases. Vi har modtaget mange kvalificerede abstracts, hvilket har givet os mulighed for at sammensætte et varieret fagligt program med præsentationer, paneldiskussioner og orale posterpræsentationer. Dertil kommer de akademiske afhandlinger fra 2023.

En stor tak til alle jer, der har indsendt abstracts, og til alle jer, der har hjulpet til!

Vi glæder os til at se jer!

Mange hilsner

DSOHH's bestyrelse

Programoversigt

Torsdag d. 11. April 2024

	Sal A	Auditoriet
09.00-10.00	Registrering	
10.00-10.15	Velkomst	
10.15-11.30	Hearing and dementia - Frank Lin	
11.30-11.45	Kaffe	
11.45-13.00	Moderatorer: Peter Tingsgaard og Mads Klokke	Moderator: Preben Homøe
	Paneldiskussion Hearing and dementia Frank Lin, Jesper Hvass Schmidt, Asmus Vogel	Disputatsforedrag: Simulation-based training and assessment of mastoidectomy— perspectives on the outside, inside, and in-between conditions of practice - Steven Arild
		Disputatsforedrag: Clinical, epidemiological and tumor-specific investigations in Human Papillomavirus (HPV) associated Oropharyngeal cancer - Christian Grønhøj (RH)
		CEORL Abstract: Optimizing post-tonsillectomy morbidity: a multicenter, double blinded, randomized controlled trial comparing surgical instruments - M. Mølhøve et al.
13.00-14.00	Frokost	
14.00-15.00	DSOHH 125 år status og fremtid ved Therese Ovesen, Christian von Buchwald og Tobias Todsén	
15.00-15.30	Kaffe	
15.30-16.30	Are we reaching the limits of human health and lifespan? Kaare Christensen	
16.30-16.45	Pause	
16.45-18.00	Generalforsamling	
19.30	Gallamiddag og dans	

Fredag d. 12. April 2024

	Sal A	Auditoriet	Udstillerlokalet
	Moderator: Thomas Hjuler	Moderator: Jens Wanscher	
09.00-09.15	Thyroid surgery in children - diagnostic evaluation, surgical treatment and pathological findings - S. Rygård et al.	Labor market effects of rehabilitation for patients diagnosed with dizziness - a Danish nationwide register-based cohort study - E. Tønnesen et al.	
09.15-09.30	Increased rates of invasive ear, nose and throat infections caused by Group A Streptococci in 2023 – The first report of acute ENT infections in the post-covid-19 era - R. Sloth	Comparison of Hearing Aid Fitting Effectiveness With Audiograms From Either User-Operated or Traditional Audiometry in a Clinical Setting - C. Pedersen et al.	
09.30-09.45	The impact of social restrictions on the prevalence and microbiology of acute tonsillitis: a retrospective cohort study of patients referred to hospital - T. Sørensen et al.	Tubomanometry-score as Outcome Prediction of Balloon Eustachian Tuboplasty in Patients with Eustachian Tube Dysfunction - N. Holm et al.	
09.45-10.00	Ansigtfrakturer i Region Sjælland - P. Homøe et al.	Association between Hospital-Diagnosed Tinnitus and Suicide - M. Mølhave et al.	
10.00-10.15	Kaffe		
	Moderator: Therese Ovesen	Moderator: Kasper Wennervaldt	Moderator: Susi Scott
10.30-10.45	PhD afhandlinger Cervical Lymph Node Metastases in Head and Neck Squamous Cell Carcinoma: Patterns, Extranodal Extension, and Diagnostic Performance of Imaging - Chadi Abdel-Halim	Erfaringer fra IFHNOS Observership på Guy's Hospital i London med fokus på hoved-hals tumorkirurgi - K. Reinholdt	Postersession
10.45-11.00	Silent Atrial Fibrillation and Cardiovascular Risk Factors in Patients with Obstructive Sleep Apnea and Diabetes - Anna Højager	Mesenchymal Stem/Stromal Cell Therapy for Radiation-Induced Xerostomia in Previous Head and Neck Cancer Patients: A Phase 2 Randomised, Placebo-Controlled Trial - K. Kronberg et al.	
11.00-11.15	Remote Ear-Nose-and-Throat Specialist Screening in Adult Potential First-time Hearing Aid Users - Lene Siggaard	Infrahyoid lap til operation af større orale cancere - C. Holst Hahn et al.	
11.15-11.30		Cardiovascular Risk in Young Patients Diagnosed with Obstructive Sleep Apnea - I. Albertsen et al.	
11.30-12.15	Frokost		

Jens Wanscher
Christian Bak

Fredag d. 12. April fortsat

	Sal A	Auditoriet
11.30-12.15	Frokost	
	Moderator: Lars Rolighed	Moderator: Michael Howitz
12.30-12.45	Radiofrekvens ablation af knuder i thyroidea - Præliminære resultater og opstartserfaringer - N. Petersen et al.	Out-of-hospital Cardiac Arrest from Foreign Body Airway Obstruction in Denmark – Incidence, Survival and Interventions - T. Jensen et al.
12.45-13.00	Paneldiskussion Lokalbehandling af knuder og cyster i thyroidea - resultater og erfaringer fra Århus, Køge, Odense og Rigshospitalet	Feasibility and diagnostic performance of sentinel nodebiopsy for staging cN0 oral squamous cell carcinoma in a previously treated neck - T. Mørch et al.
13.00-13.15		Intraoperative Transoral Ultrasound for the detection of Head and Neck Human Papillomavirus-associated Squamous Cell Carcinomas of Unknown Primary - M. Garset-Zamani et al.
13.15-13.30		Time of Day Variations and Patient Characteristics in Post Tonsillectomy Hemorrhage - P. Ladegaard et al.
13.30-13.45	Kaffe	
	Moderator: Henrik Jacobsen	Moderator: Simon Fuglsang
14.00-14.15	Genomic alterations in the stepwise progression from normal mucosa to metastasizing oral squamous cell carcinoma - J. Jensen et al.	Cochlear implantation in Branchiootorenal syndrome – case report and review of the literature - L. Tian et al.
14.15-14.30	Cefuroxime concentrations in facial artery musculo-mucosal flap, mucosa of the oral cavity, and subcutis: A randomized microdialysis study - J. Hansen et al.	Is the risk of postoperative infection related to postoperative oral antibiotic treatment following cochlear implantation? A retrospective cohort study of 927 consecutive patients - T. Meldgaard et al.
14.30-14.45	Validity of the large language model ChatGPT (GPT4) as a patient information source in otolaryngology by a variety of doctors in a tertiary otorhinolaryngology department - J. Nielsen et al.	Consequences of open versus closed tracheostomy immediately after decannulation - R. Kraghede et al.
14.45-15.00	Afslutning og Priser	

Poster session Fredag d. 12. April kl. 10.30-11.30 i Udstillerlokalet

Poster session		
10.30-10.34	Streptokok toksisk shock-syndrom hos en rask kvinde	Anna Højager Christiansen
10.34-10.38	Frenotomy in infants with tongue tie does/does not reduce breastfeeding mother's nipple pain: A systematic review	Lærke Nørgaard Albertsen
10.38-10.42	N. hypoglossus-parese ved a. carotis interna-dissektion	Hayarpi Kordjian
10.42-10.46	Transoral Robotic base of tongue reduction in patients with obstructive sleep apnea – a cohort study – preliminary results	Kasra Zainali-Gill
10.46-10.50	Genetiske resultater ved Høretab - 1 år efter indførslen af nye audiopaneler i DK	Christina Nygaard Lassen
10.50-10.54		
10.54-10.58	Et bedre liv med laryngeal dystoni	Gohar Nikoghosyan-Bossen
10.58-11.02	The value og FDG-PET/CT in surveillance of head and neck cancer patients after curative intended treatment	Nicoline Thorup
11.02-11.06	3D-printede modeller til træning af ørekirurgi	Andreas Frithioff
11.06-11.10		
11.10-11.14	Local-anaesthesia one-step sleep surgery is feasible - a case series	Jens Fabricius Krarup
11.14-11.18		
11.18-11.22	Prehospital cricothyroidotomy during out-of-hospital cardiac arrest in Denmark: A project description and preliminary cases	Theo Walther Jensen
11.22-11.26	Taste Drop Test (TDT) til bestemmelse af en tærskelværdi for smagssansen	Laura Danielsen
11.26-11.30	The correlation between falls, postural instability and vestibular function in type 2 diabetes with or without polyneuropathy	Mathias Alrø Fichtner Bendtsen
